

## **FENWICK ISLAND BEACH PATROL REPORT**

FIBP is fully ready to start the 2021 summer. We have a full beach patrol with a total of 31 guards. We had only 6 available spots to fill this year, and we are happy to report the spots have been filled with talented and skilled new hires that will add to the traditions and high-quality standards that FIBP is known for. Side by side transport will be available again this summer. We ask the people to understand the priority is beach safety, and at times pick-up and drop-off may be delayed if lifeguards are engaged in an emergency. The number that you can call is 302-462-6949. The service is provided from 10:30am - 4:00pm on a first come first served basis. FIBP will be following CDC recommendations for COVID safety.
